

Learning from Zika: Lessons for future public health emergencies

June 11, 2019 | District Architecture Center | Washington, DC

TIME	PROGRAM
8:45 - 9:00 AM	Coffee and tea
9:00 - 9:30 AM	<p>Welcome <i>Tara Sullivan, MPH, PhD, Director, Knowledge for Health Project</i></p> <p>Opening Remarks <i>Irene Koek, Senior Deputy Assistant Administrator, Global Health Bureau, USAID</i></p>
9:30 - 10:45 AM	<p>What you should know from the Zika response Panelists will share broadly applicable lessons learned from the USAID-supported Zika response. Their conversation will be guided by four cross-cutting themes: collaborating across sectors; knowledge management; capacity strengthening; and care improvement, coordination and integration.</p> <p>Moderator: Anne Ballard Sara, Program Officer II, K4Health Erin Law, Global Zika Advisor, IFRC Dr. Ariel Habel, Project Director, Community Action on Zika (CAZ), Save the Children Paula Wood, Director, Zika AIRS Project (ZAP), Abt Associates</p>
10:45 - 11:00 AM	Break
11:00 - 11:30 AM	<p>Interactive activity: “Buzz Stations” These are small, informal table conversations of 5-6 people. A table host will briefly summarize an effective approach that has generated “buzz” within the Zika responders community and lead a table discussion.</p>
11:30 AM - 12:15 PM	<p>Families First: Improving Services and Support for Affected Families Zika changed the lives of thousands of expectant mothers, fathers and their babies. This conversational panel will focus on how responders put families at the center by improving the quality of health care services and support: not only for patients affected by the Zika virus, but also for those requiring care for other neurodevelopmental disorders. Moderated by USAID, representatives from Zika partner organizations will share quality improvement approaches specific to a rapid response setting.</p> <p>Moderator: Dr. Julie Gerdes, Zika Technical Advisor, USAID Graciela Avila, Chief of Party, Paraguay, ASSIST</p>

	Garren Lumpkin, Regional Consultant for Latin America and the Caribbean, UNICEF Dr. Lisa Noguchi, Director, Maternal Newborn Health, MCSP
12:15-12:30 PM	Closing remarks <i>Tara Sullivan, MPH, PhD, Director, Knowledge for Health Project</i>
